Notice to Applicant: Foundation walls in excess of ten (10) ft in height and structural concrete floors are required to be designed by an engineer and inspected per the design requirements. The permit holder or their duly authorized agent is required to make an appointment with the Building Official twenty-four (24) hours in advance of an inspection request. All items to be inspected are required to be completed prior to the scheduled inspection. Any type of inspection that requires a second re-inspection will be charged an additional fee of forty (\$40) dollars per inspection, additional fees must be paid in full, and all required inspections must be completed before a certificate of occupancy or final approval will be issued.

Building Permit Application Package Information

What you are given:

1. File Folder
2. Building Permit Application Package Information
3. List of Contractors/Sub-Contractors
4. Landscaping and Screening Letter
5. International Building Codes
6. Required Building Inspections
7. Inspection Requests/Required Inspections Checklist
8. Sewer Service Application
9. Residential Plan Review Checklist
10. Important Grinder Pump Care Information
11. Approved suppliers of products and service for Grinder Pumps

What you must return for review:

All forms must be completed in full for application to be accepted.

1. File Folder
2. Building Permit Application Information (*Completed and signed*)
3. Building Permit Application
4. List of Contractors/Sub-Contractors (*Completed and signed*)
5. Landscaping and Screening Letter (*Signed*)
6. International Building Codes (*Signed and Dated*)
7. Required Building Inspections (*Signed*)
8. Sewer Service Application with \$100 cash, check or money order (*Completed and signed*)
9. Two (2) copies Plot Plan with silt fencing highlighted, if silt fencing is required
10. Two (2) copies Complete Building Plans with Original Missouri Engineer Stamp
11. One (1) digital copy of Plot Plan and Building Plans
12. Provide or Show Proof of current Occupation/Business License for the City of Lone Jack

What you will keep:

1. Inspection Requests/Required Inspections Checklist
2. Residential Plan Review Checklist
3. Grinder Pump Information and approved suppliers (*If sewer available at address*)
4. Approved suppliers of products and service for Grinder Pumps

Building Official PLEASE TEXT 816-401-5401 Utility Clerk 816-345-9035

To: All Builders

Regarding: Landscaping & Screening for New Construction within the City of Lone Jack

The purpose of this Ordinance is to improve the aesthetic qualities of the City of Lone Jack and to protect and preserve the appearance, character, and value of its' neighborhoods, refer to Lone Jack Unified Development Ordinance Section 7 for landscaping details. A landscaping and screening plan shall be required upon application for a Building Permit for new construction or structural alteration of buildings in all Zoning Districts, excluding single family and duplex structures.

In cases where landscaping plan approval would cause harmful delay to the start of construction, the Building Official may issue footing and foundation permits for the project so that construction may proceed. Permits for construction beyond the footing and foundation shall not be issued until the landscaping plans have been submitted and approved.

This Ordinance shall not apply to structures for which landscaping and screening plans have previously been submitted and approved. Except as noted herein, Landscaping and Screening plans shall be approved prior to the issuance of a Building Permit.

1. The minimum landscaping requirements for all uses shall be either two (2) trees per building lot, or one (1) tree and two (2) shrubs per building lot. Said trees shall be planted on private property, not on public property, shall not be more than forty (40) feet apart and shall be located in the front or side yard. Said trees shall be a minimum of 1 – 1 ½ inches in diameter.
2. During all phases of construction water meters and sewer shut-off valves, if applicable, must remain exposed and properly capped. Do not stack or cover these items with any building material. During all construction phases any damage to these items will be the responsibility of the builder to repair and or replace. **Upon final grading and sodding ensure that meters and cutout valves are properly marked, capped and visible.**

Please feel free to discuss your landscaping and screening plans with me prior to installation to avoid any future problems and or violations.

Building Official

City of Lone Jack, MO

The applicant and or agent hereby agrees to abide by and comply with the Landscaping and Screening Ordinance for new construction within the City of Lone Jack.

Building Official PLEASE TEXT 816-401-5401 Utility Clerk 816-345-9035

1. The City of Lone Jack has adopted the **2012 International Building Codes**. The Board of Aldermen further adopts any future revisions, modifications, and updates of the below stated codes and such each becomes incorporated as a portion of Section 5.64 of the City Code. At this time the listed codes are being enforced for all new construction within the City of Lone Jack.

2012 – International Building Code	2012 – International Residential Code
2012 – International Fire Code	2012 International Plumbing Code
2012 – International Mechanical Code	2012 – International Existing Building Code
2012 - Fuel Gas Code	2012 – International Energy Conservation Code
NEC 2011 – National Electrical Code/International Electric Code Series	
2. The Building Permit should be displayed at all times in plain sight on the building site.
3. All construction or work for which a permit is required shall be subject to inspection and it shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes.
4. A **twenty-four (24) hour notice** must be given to the Building Official prior to any inspection. The Building Official will then schedule times and dates for all inspections. ***Failure to comply can result in a delay of your inspection.***
5. A representative of the calling party requesting the inspection is requested to be present at the inspection site at the time of the scheduled inspection or has provided the Building Official access to the inspection site. Any job requiring a re-inspection will be charged a fee of \$40.00 (forty dollars) to the Building Permit. All work to be inspected must be completed prior to the scheduled inspection. (Inspections scheduled for after hours or weekends, without prior *approval of the Building Official*, will be charged to the Building Permit at \$40.00 (forty dollars) per inspection.
6. Prior to any Building Permit being issued the following is required:
 - a. Complete the Building Permit Application process by obtaining a Building Permit Application Package and detailed instructions from the City of Lone Jack, Public Works Department Administrative Assistant/Clerk.
 - b. In ordinance with the city code, every person whether or not located in the city, desiring to engage in any business profession or occupation, including building contractors and subcontractors in the city, shall be required to obtain an occupation (business) license from the City of Lone Jack, City Clerk before engaging in such activities.
 - c. A permit fee, sewer tap fee, sewer impact fee, and sewer deposit if required, must be deposited with the City of Lone Jack City Clerk.
 - d. If a Septic System is required, a “Certified Copy” of the Jackson County Permit must be submitted before any Building Permit will be issued.
 - e. If a grinder pump is required, please refer to the approved list of basin and pump packages. A list of installers is also provided. If your choice of grinder pump and basin are not listed, you must provide detailed engineering documents to the Public Works Department for approval.
 - f. Please make check or money order payable to the ***City of Lone Jack***.

City of Lone Jack Public Works Department

207 N Bynum Rd. Lone Jack MO 64070

Building Official PLEASE TEXT 816-401-5401 Utility Clerk 816-345-9035

7. No occupancy is permitted until the Final Inspection has been completed and approved. If additional fees have been accumulated, payment is required before the Certificate of Occupancy can be issued. REF: Chapter 502, Section 5.49 of the City Code.
8. **Warning: No person shall make connection of roof downspouts, exterior foundation drains, areaway drains, or other sources of surface runoff of groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sewer.**

REQUIRED BUILDING INSPECTIONS

All inspections are required before receiving a Certificate of Occupancy

1. The Building Permit should be displayed at all times in plain sight on the building site.
2. All construction or work for which a permit is required shall be subject to inspection and it shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes.
3. An Occupation (**Business**) License is required before any inspection will be performed. In ordinance with the city code, every person whether or not located in the city, desiring to engage in any business profession or occupation, including building contractors and subcontractors in the city, shall be required to obtain an occupation (business) license from the City of Lone Jack City Clerk before engaging in such activities.
4. All inspections require a **twenty-four (24) hour notice**. The 24-hour notice must be given to the Building Official prior to any inspection. The Building Official will then schedule times and dates for all inspections. *Failure to comply can result in a delay of your inspection.*

To schedule an inspection, please text 816-401-5401.

5. The following information is required to be given to the Building Official when scheduling each inspection.
 - a. Permit Number
 - b. Type of Inspection
 - c. Street address
 - d. Locality (Subdivision)
 - e. Lot Number
 - f. Builder (Permit Applicant)
 - g. Inspection for (Contractor Name and Company Name)
 - h. Phone Number (Requestors)
 - i. Date and time premises will be ready for inspection.
6. A representative of the calling party requesting the inspection is requested to be present at the inspection site at the time of the scheduled inspection or has provided the Building Official access to the inspection site. Any job requiring an extraordinary inspection or re-inspection will be charged a fee of \$40.00 (forty) to the Building Permit. All work to be inspected must be completed prior to the scheduled inspection.
7. No Occupancy is permitted until the Final Inspection has been completed and approved and **All subs have an Occupation (Business) License**. If additional fees have accumulated, payment is required before the Certificate of Occupancy can be issued. REF: Chapter 502, Section 5.49 of the City Code.
8. In some cases, Occupancy is permitted before payment is made. All accumulated fees are due upon receipt of invoice.
9. Please make checks or money orders payable to **City of Lone Jack**.

SEWER SERVICE APPLICATION FORM

Name of Property Owner(s) or Applicant(s) Effective Date

Property/Service Address Name of Landlord

Mailing/Billing Address Phone Number

E-Mail Alternate Phone Number

SSN# or D/L DOB

I, [REDACTED], State that I am the owner/renter (Circle), or I am buying or renting on contract the above listed premises and do hereby request the sewer service be billed to me in my name and I also hereby deposit the sum of \$100.00 to be retained by the City until sewer service is discontinued and the final bill is computed and satisfied. The City may use the deposit at any time to satisfy my delinquent account, and I agree to an additional deposit. In return for the City providing me sanitary sewer service, I also specifically agree to the following instructions:

1. If these premises are rented or leased to another party or parties and charges are to be billed to other than the owner, a new application for service must be filed with the City of Lone Jack Public Works by the lessee. The owner shall remain jointly and severally liable with the occupant(s) for payment or sewer services.
1. If I fail to pay my sewer use charge account, then I hereby agree that the City may enter upon my property and disconnect the in-line water valve on my side of the water meter pit, secure such valve and reserve the right to only restore water service when my sewer use charge account has been satisfied. Disconnect and reconnect fees will apply. If needed, I will be responsible for any fees/charges incurred during the collection process. Any information provided may be used to collect balance due on your account.

This application and acceptance thereof by the City of Lone Jack shall constitute a contract and shall be subject to all ordinances in force or that may hereafter be adopted by the City.

X

Owner(s) or Applicant(s) Signature CITY OF LONE JACK, MO.

It is recommended to introduce a small amount of Dawn dish soap into the sewer system occasionally.

RESIDENTIAL PLAN REVIEW CHECKLIST

Submittal Requirements:

Completed permit application

Plot Plan:

Two (2) copies of construction drawings

Footings/foundation requirements

Footing and column pad and grade beams dimensions

Foundation wall thickness, height and reinforcement size and spacing

STRUCTURAL CONCRETE FLOOR DETAILS:

Beam & column locations, size, and material

Location of vertical supports for beams

Concrete reinforcement size and spacing

Concrete thickness and minimum compressive strength

FLOOR PLAN:

Provide square footage of living area , garage area , unfinished basement area

Designate the use of all areas such as living, storage, garage, and attic storage

Mark location of emergency escape locations from bedrooms and basement

Show location and size of electric service panel and grounding location

Provide combustion air calculations for fuel burning appliances located in confined spaces

Designate R-values for all floor, wall, ceiling

Detail any required dwelling unit area separations

JOISTS, BEAMS, HEADERS AND GIRDERS:

Species, grade, and size of all dimensional floor joists

Location, size and material of beams, girders, headers, and vertical supports

Show location of joists under bearing partitions

Identify any blocking or lateral restraint bridging required

Identify any type of manufactured roof or floor trusses to be used

When roof or floor trusses are installed, provide truss package for installation and layout

Size, height, and spacing of studs

Identify braced wall locations and length of braced wall panels

Specific type of wall bracing

Specify exterior sheathing material

Identify interior load bearing walls

Provide size, species, and grade of rafter and ceiling joists

Show locations of vertical supports and purlins

This checklist is provided to assist in the preparation of construction documents & permit applications.

Building Official PLEASE TEXT 816-401-5401 Utility Clerk 816-345-9035

Important Grinder Pump Care Information

As you may be aware, your property is connected to a low pressure system and utilizes a grinder pump unit to pump and grind your wastewater to the sanitary sewer. Not all properties have an individual pump, but gravity flow to a pump station. In a continuing effort to inform property owners, we are giving a reminder notice about the proper use of your grinder pump. The following items **SHOULD NOT** be put down the drain or otherwise introduced into the grinder pump or into the gravity flow sewer system!

Grease, sand, grit (cat litter, aquarium gravel, etc.) or petroleum products

Glass, powder detergents

Metals of any kind (coins, nuts/washers, screws, and nails, etc.)

Diapers, wet wipes, cleaning wipes, feminine products, rags, cloth, paper towels

Plastic objects (toys, utensils, etc.)

Explosives

Flammable materials

Strong chemicals

Gasoline, diesel fuel, parts cleaner, kerosene, all oil and flammable products

Drug paraphernalia

Building material (drywall mud, paint, etc.)

Any or all sources of groundwater and rainwater (sump pump, etc.)

In the event of a grinder pump malfunction, a red warning light will activate and an audible alarm will sound on the grinder pump control panel that is located on the outside of your house. If you experience a pump malfunction, please contact the emergency line on the front door of the grinder pump control box on the outside of the house. Under no circumstance should the homeowner pull the pump out of the sewer tank or take the lid off the tank. Do not allow a plumber to pull the pump or clean the service line without notifying the company at the emergency line.

By following these simple rules, you will help extend the life of your grinder pump and the gravity flow lift stations.

It is recommended to introduce a small amount of Dawn dish soap into the sewer system occasionally.

Thank you,

Lone Jack Public Works Director
